Deadline to Apply November 30
ABOUT DOT FOODS

We have been family-owned and –operated since it was founded out of the back of a red station wagon by Robert and Dorothy Tracy in 1960.

- Largest food industry redistributor in North America
- $7.1 billion company
- #63 on Forbes’ list of America’s Largest Private Companies
- 12 distribution centers across the country
- Nearly 5,500 employees
- Almost two-thirds of our promotions go to internal employees

We consolidate orders of less-than-truckload quantities and deliver weekly to food industry distributors. This unique model helps manufacturers distribute their products more efficiently than they could on their own. The Dot Expressway®, our website-commerce platform, sets the standard for the industry.
